

## **ENVIRONMENTAL POLICY**

As Hyundai Motor Türkiye, we have aimed to reduce our environmental impacts by continuously improving the environmental performance of our factory in Alikahya.

In this respect, our principles are as follows;

### **Protection of the Environment**

Performing activities to prevent environmental pollution at source, ensuring protection of the environment by applying new technologies and methods

### **Fulfillment of Compliance Obligations**

Complying with all legal obligations arising from the legislation as well as all the obligations we commit to voluntarily comply with

### **Efficient Use of Resources**

Performing activities in order to increase efficiency and saving amount of natural resource consumption

### **Waste Management**

Reducing waste at source, increasing recycling amounts, disposing non-recyclable waste with environmentally-friendly methods

### **Education and Communication**

Performing activities to improve environmental awareness of our employees, sub-constructors and suppliers, providing communication about our environmental performance

Top Management is committed to implementing this policy and providing the necessary resources for the effectiveness of the environmental management system.
